PROFILE

Computer Engineering graduate from ESPRIT (Tunisia), currently in the Freemover program at Philipps University of Marburg (Germany). Passionate about software development with strong expertise in Java, Spring Boot, Angular and DevOps practices (CI/CD, Docker, Jenkins). Also experienced in Blockchain development (Ethereum, Solidity). **Available immediately and open to relocation across Germany.**

EDUCATION

Freemover Program — Computer Science — Philipps University of Marburg, Germany Oct 2025 — Sept 2026

Academic mobility program — advanced computer science courses

Computer Engineering Degree — ESPRIT — Higher Private School of Engineering and Technology, Tunis Sept 2022 — Dec 2025

Specialization: Software Engineering — Graduated

Higher Technician Diploma (BTS) — Industrial Computing — ISET Nabeul, Tunisia 2015 — 2018

Industrial computing and automation

PROFESSIONAL EXPERIENCE

Software Engineering Intern — DocChain — Studitel, Tunisia March — Nov 2025

- Designed and developed a blockchain-based document management solution using Ethereum and Solidity
- Implemented secure smart contracts with comprehensive unit testing
- Built an Angular front-end and a Spring Boot REST API back-end
- Set up a DevOps approach with Docker containerization and CI/CD pipeline

Engineering Intern — E-commerce Platform — MD Company, Tunisia Summer 2024

- Developed a complete e-commerce website using Symfony 5 (cart, payment, product and user management)
- Designed and implemented the database schema with MySQL
- Optimized application performance and user experience

Full-Stack Web Developer — MD Company, Tunisia Jan 2019 — Jan 2022 • 3 years

- Designed and developed multiple business web applications using Java/Spring Boot and Angular
- Implemented secure REST APIs documented with Swagger/OpenAPI
- Optimized performance and refactored existing modules
- Collaborated with product teams and participated in code reviews

Initiation Intern — International Mobility Website — ESPRIT-RDI INOBI, Tunisia Summer 2023

- Developed an international mobility platform with user management and registration automation
- Implemented opportunity search and filtering features

Final Year Intern — Automated Supervision — STBO Kasserine, Tunisia Feb — June 2018

- Developed an automated supervision system with TIA Portal for production machines
- Process optimization and error reduction in industrial automation

TECHNICAL SKILLS

Backend: Java, Spring Boot, PHP, Symfony 4/5, REST APIs, Swagger/OpenAPI

Frontend: Angular, TypeScript, JavaScript, HTML5, CSS3

DevOps: Docker, Jenkins, CI/CD, Grafana, Prometheus, SonarQube, Nexus, Git

Databases: MySQL, PostgreSQL, MongoDB, Oracle

Blockchain: Ethereum, Solidity, Smart Contracts, Web3.js

Tools & Methods: Jira, GitHub/GitLab, Postman, Agile/Scrum

LANGUAGES

Arabic — Native

French — Fluent (TCF certified)

English — Fluent (B2)

German — Learning (A2, currently improving in Germany)

CERTIFICATIONS

- Sustainable Development Goals (SDG) — Coursera, 2024
- LinkedIn Sales Representative — 2022
- Test de Connaissance du Français (TCF) — 2022

SOFT SKILLS

Strong team player • Problem solver • Quick learner • Reliable and rigorous • Adaptable to new technologies • Effective communicator • Self-motivated
